Typhoid Fever	1		

a. Chickenpox cases are reported primarily from schools. Confirmed and probable cases are included.

Except for Chickenpox & Influenza-Like Illness, only confirmed cases (as defined by National Surveillance Case Definitions: http://wwwn.cdc.gov/nndss/script/casedefDefault.aspx) are included.

Reports are considered provisional and subject to updating when more specific information becomes available.

b. Includes "Influenza-Like Illness (ILI)" and lab-confirmed influenza. ILI cases have flu-like symptoms and are reported primarily by schools.

c. "Meningitis, Bacterial, Other" includes meningitis and bacteremia caused by bacteria OTHER THAN H. influenzae, N. meningitidis, or S. pneumoniae.
